

WHY

PHARMASCIENCE?

WE'RE REACHING PATIENTS WORLD-WIDE

- Pharmascience has extensive experience in developed and emerging world-wide markets
- We have a presence in over 60 countries and that presence is growing

OUR R&D IS TARGETED TO MEET GLOBAL AND REGIONAL DEMANDS

- Pharmascience's R&D platform is robust and fully integrated
- We focus on product development for markets around the world
- We have comprehensive international regulatory and logistics expertise

WE PROVIDE MEDICINES PATIENTS CAN TRUST

- We offer a broad range of safe, high-quality, affordable medicines
- Our state-of-the-art global operations meet or exceed the strictest international standards

WE OFFER AN ENRICHED CUSTOMER EXPERIENCE ADAPTED TO YOUR NEEDS

- Our business model is flexible - customized to how you operate
- We offer targeted sales and marketing programs to support your strategic growth
- Every Pharmascience client has a dedicated account team to ensure speed-to-market
- Our dynamic international Management Team has outstanding knowledge of global markets with the resources to support your efforts

WHO IS PHARMASCIENCE?

We are an established global developer and manufacturer of pharmaceutical products - and one of Canada's fastest growing major pharmaceutical companies. We offer customers and patients first-to-market solutions and a wide portfolio of over 250 generic, innovative, branded and OTC products.

Our partners are locally strong. We complement that strength by bringing value to their market through tailored manufacturing and packaging. We're collaborative and flexible, and committed to mutually-beneficial partnership-based business models.

WHY PHARMASCIENCE?

We help build more successful business partnerships.
